I am pleased to write this letter in support of Harmony 4 All, a remarkable nonprofit organization dedicated to providing free access to high-quality music education and resources for underserved K-12 students across New York City. As a 501(c)(3) nonprofit, Harmony 4 All has been instrumental in creating meaningful musical opportunities for students who would otherwise lack access to music education, instrument rentals, and essential repairs.

In 2024, my office had the privilege of partnering with Harmony 4 All to bring music to our community through engaging performances and initiatives that uplifted constituents of all ages. Their commitment to equity in music education aligns with my dedication to ensuring that every child—regardless of socioeconomic background—has access to enriching learning experiences.

I fully support Harmony 4 All's efforts to expand its programming and impact. This organization not only provides free access to music education but also strengthens communities by fostering creativity, cultural engagement, and youth empowerment. With additional financial support, Harmony 4 All can reach even more students, ensuring that music remains a vital and accessible part of education in our city.

I look forward to seeing Harmony 4 All continue to serve my constituents and the greater NYC community.

Please feel free to contact my office should further information be required.

Sincerely,
